

A Cry from the Heart of the universal Spirit of Love to all extra-celestial Beings

My blessing of love from the central life source of the whole creation, the eternally pulsing heart of my heavenly spirit of love, God in the I Am, flows in my word of love through the herald to the people and their souls and to all beings in fallen areas who gladly open themselves to it.

With my universal rays of love, I am now trying to reach all extra-celestial beings so that they will resonate higher in their consciousness, awaken spiritually, and follow the cry of my heart for their heavenly return.

Truly, according to the former agreement in the heavenly being between the heavenly and apostate beings to live in self-created extra-celestial worlds limited in cosmic and temporal terms by their own ideas, the final cosmic eon of their extra-celestial life has now come to an end. This means that I and the voluntary celestial and more highly developed extra-terrestrial beings will, one-by-one, be initiating the return of the fallen worlds and the beings that dwell therein. Therefore, I, the heavenly spirit of love, call from my heart all the extra-celestial beings of different consciousness in the fallen areas, whether ethereal, semi-material, or material, especially the people on different continents and the many wandering, earth-bound souls before the imminent clearance of the earth and speak to their hearts: "Please turn around now and make your way to your home of light by once again following the just, free,

and impersonal heavenly rules of life, but also by increasingly incorporating the gentle, humble, and warm qualities of celestial beings into the life you have already been living!"

Now please follow the cry of my hear and return to your home of light. I love you and no longer not want to see you sad and suffering due to heavenly absence, but instead once again happy on a heavenly planet!
